- Zoning Products
- Gas Piping
- Humidity Control
- System Design
- Unit Heaters
- Hydronic In-floor & baseboard
- PTCS Duct Sealing & Heat Pump Commissioning

Before the cooling or heating seasons, it is a good idea to have your system checked out by one of our maintenance experts. Small problems can become bigger problems as your system continues to run.

Our experienced staff can recommend the appropriate solution for your needs. Our systems include cooling, heating, air cleaners, thermostats, and accessories.

WHO WE ARE

Advanced Heating and Cooling Inc. is a family-owned business that has been serving the greater Kitsap Area since 1972. Taking pride in our customer service and quality equipment, we strive to make our customer's experience one to remember.

Our team consists of 20 members who work both in the office and out in the field. Five of our employees have been with our company for over 20 years.

COMFORT CLUB

MAINTENANCE PROGRAM

"YOUR COMFORT IS
OUR BUSINESS"™

COMFORT CLUB

MAINTENANCE PROGRAM

We designed this tiered program with our clients in mind. We wanted to offer more than just the typical 15% off repairs, that's why we designed a program with benefits we felt would meet the maintenance needs of our clients. We want to keep your investment running well. We understand that if your system stops working how inconvenient that can be - not only is it uncomfortable being without heat or cooling, scheduling an additional service appointment, and taking time off from your busy schedule on short notice is just as bad.

Statistics show annual maintenance drastically reduces the need for "emergency no heat/cooling" calls. Most people wouldn't run their car for 10 years and never change the oil or make sure the belts are still wearing well. This is the same for your HVAC investment. Let us help make sure your system keeps you comfortable all year round, with our Advanced Comfort Club.
